

NOTICE OF NON-CONSENT AND DECLARATION OF INVALIDITY

TO: All Courts, Attorneys, Law Enforcement, and Interested Parties

DATE: April 7, 2026

RE: Cases in Los Angeles and Orange Counties involving Shelly Watts and/or her children

NOTICE TO AGENT IS NOTICE TO PRINCIPAL; NOTICE TO PRINCIPAL IS NOTICE TO AGENT

This letter serves as formal notice regarding the proceedings involving the undersigned and my children beginning June 1, 2020, to the present.

Be advised that the initial actions taken in this matter were never valid, lawful, or enforceable. The entire matter was initiated through fraud and deceitful processes.

Consequently, every subsequent action, order, and enforcement effort carried out from June 1, 2020, until the present has been executed without lawful authority.

Furthermore, the attempt to validate these actions through hearings presided over by a court commissioner further invalidates all claims. I hereby declare that I never provided the required consent for a commissioner to hear matters affecting the fundamental rights of myself and my children. As such, these proceedings lack the necessary jurisdiction and legal standing to be binding.

Because these actions were void from their inception (void ab initio), a court order is not required to correct these unlawful acts. Notice to other individuals is not required, as their actions failed to follow lawful procedure and were rooted in the very crimes that have prevented a lawful response until now.

These facts were known by the parties involved and were relied upon as part of a scheme to carry out these unauthorized actions. I stand on my rights and do not recognize the enforceability of any orders arising from these invalid proceedings.

Sincerely,

Shelly Watts
