Upon getting off of the phone with Deputy Allen I walked in to Major Reynolds officer to inform him of everything. I wanted to keep him updated on everything because of how much we have been dealing with Deputy Allen regarding child custody disputes and complaints from her ex-husband. After telling Major Reynolds of the above information he asked me to give her a call so that we both could talk with her.

Deputy Allen was called from my cell phone and was placed on speaker. I informed Deputy Allen that she was on speaker phone with myself and Major Reynolds. Deputy Allen was informed that there was nothing at all that could be done regarding the messages that were being sent out on Facebook etc. Deputy Allen was told that she needed to handle her business outside of the agency as problems are just following her. Major Reynolds and I both told Deputy Allen that first she needed to follow all court orders as directed by the courts. Second if her boyfriend was under suspension and she was allowing it to happen then it needed to stop. Deputy Allen once again became upset and stated, "Should I just quit my job?"

Major Reynolds and I told Deputy Allen that no she should not quit her job however Major Reynolds wanted to make it clear to her that we would not continue to put up with this and the drama that she was bring to the work place. Deputy Allen stated that she understood and that she would be following all court orders directly as they were written. She stated that if she needed to take off time from work to make sure she was not in violation then this is what she will do.
