

MEMORANDUM

Kissimmee Police Department

DATE: September 21, 2020
TO: Chief Jeffrey O'Dell
VIA: Chain of Command
FROM: Captain Brandon Layne, Support Services Division
SUBJECT: Authorization for Administrative Removal

The Forensic Unit has exhausted all available means to locate the 60 items, which were deemed "unable to locate" during a full inventory during 2019.

Authorization forms to destroy "unable to locate" items, which appear to be eligible for destruction (39 items), will be forwarded to the proper authority for review.

It is recommended this memorandum serve as a request for an administrative authorization for the removal of the remaining 21 "unable to locate" items that do not appear to be eligible for destruction. This removal authorization will allow the 21 items to receive a disposition of "destroyed" within the Records Management System per the authority of the Chief of Police. This will ensure the items do not affect further inventories. A complete list of the 21 items is attached to this memorandum, entitled "Unable to Locate Items – Not Eligible for Destruction."

Crystal Allen, of the State Attorney's Office, has been contacted in regards to the 21 items, and has been provided the complete list of cases that do not appear to be eligible for destruction.

Letters of notification have been completed for each of the 21 items and corresponding defendants. These letters have been sent to the Office of the State Attorney.
